

as a truck driver i have found no other form of radio that as made my day or night drive safer. I don't channel hop looking for a clear signal or reach for CD's anymore. Now I can pay closer attention to my driving. If you need to spend my hard earned TAX Dollars on something use it to find ways to CUT YOUR PAY,or make my roads more safer (i.e.,don't give drivers licences to illlegal aliens). XM Radio is a good idea for both you and me let's woork together on bigger issues.
